

Our DJ's introduce the personal touch that makes the difference between a good night, and a memorable night.

We know that the selection of music can make or break any event. To give you a few ideas, we offer a selection of our most requested songs, which are available to be browsed and sampled via our website.

With an online form to help you build your playlist (along with any songs that you do not wish to hear), you can rest assured that you will get exactly what you require.

Any songs not listed can also be added at your request, both before and on the big day (then just leave the rest to us).

Crucially, we work to your schedules, so any announcements you may wish to have built into your evening can easily be accommodated.

Additionally, we always use the best equipment available for both presentation and sound quality, to ensure your venue looks as good during the day, as it will in the evening. Full room filling lighting systems are employed, with our own glitter ball, and the availability of both a smoke machine, and a bubble machine..

Be assured that our DJ's fully understand the fine balance that needs to be reached between being too vocal, and too quiet, and so will be as vocal as the situation requires to encourage the participation of as many people as possible, whilst not being over-powering. Ensuring the dance floor is kept as full as possible throughout the evening.

*Discotheque Equipment
For your Wedding
Or
Civil Partnership*

We're based in Canterbury, Kent and we are a professional PAT tested & fully insured Wedding Disco Specialist, with trained, experienced DJ's who offer an unrivalled level of service for your complete piece of mind.

We also offer all our customers our free & massive online disco music library for you to compile your very own unique and personal Playlist, which is updated weekly to include the very latest chart toppers.

Rest Assured

Everyone knows that equipment can fail, but you can rest assured that we can keep the music playing. Not only do we come prepared with both the latest digital music system, and traditional CD system, but we also come equipped with an additional digital music system backup, allowing us to switch at the press of a button.

Options

Early Start & P.A.

- 11am arrival with background music from 12pm
- Cordless P.A. System for speeches etc.
-

This is ideal if:

- You require everything to be set before your wedding
- You don't want us to be setting up in front of your guests
- If access at your venue is poor and you don't want that issue to slow down the transition from the meal to the disco
- When the wedding ceremony or breakfast is to be held in the same room as the disco
- You want the use of a radio microphone for the speeches
- You want to make use of background music before or during the meal
